

MAHESHWARI COMPANY

Delivering Aluminium Solutions to Industries since 1966

HINDALCO⁺⁺
ENGINEERING BETTER FUTURES

नालको  **NALCO**

About Founder

Founded by Mr. Bal Krishan Bhuraria in 1966, Maheshwari Company has been continuously serving diverse industries across India, including Distilleries, Automobiles, HVAC, Building & Construction, and many more, with premium-quality aluminium products.

Mr. B.K. Bhuraria, a respected name in the aluminium industry, also served as the President of the Aluminium Association of Delhi for two decades, reflecting his strong leadership and deep industry expertise.

Today, Maheshwari Company stands among India's leading aluminium stockists and is an authorised dealer of Hindalco and NALCO, trusted for quality, reliability, and long-standing industry relationships.

With a legacy built on trust, commitment, and customer satisfaction, Maheshwari Company continues to strengthen its presence across India by delivering customised aluminium solutions, ready stock availability, and timely service to meet the evolving needs of modern industries.

Crafted in Aluminium, Delivering Excellence...

Why Choose Us

- One of India's well-known and trusted names in the Aluminium industry
- Authorised Channel Partner of Hindalco and NALCO
- Strong technical expertise with an extensive aluminium product portfolio
- Solution-oriented approach focused on customer-specific requirements
- Wide product range catering to Industrial, Power, Solar, HVAC, Automotive, and Architectural sectors
- Competitive pricing with support for cost optimisation
- Commitment to premium quality, timely delivery, and long-term business relationships
- Pan-India supply network with reliable service and consistent support

Aluminium Sheets

High-quality aluminium sheets for facades and ceilings, insulation cladding, fabrication, signage, transportation, and industrial applications. Available in multiple grades with excellent durability and corrosion resistance.

Aluminium Coils

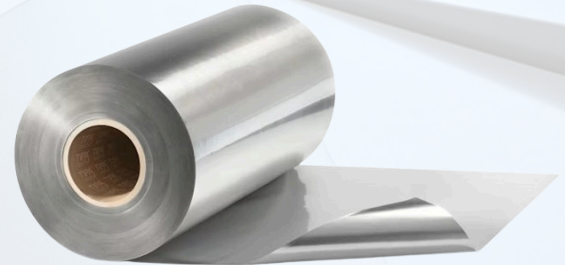

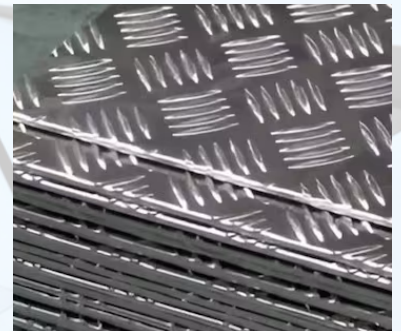

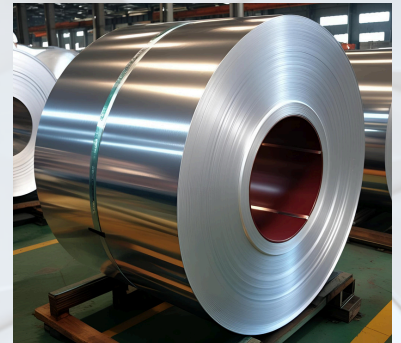

Aluminium coils for insulation cladding, roofing, ducting, HVAC, and aluminium coil with polysurlyn / polycraft paper application with superior finish and for long-term industrial performance.

Aluminium Chequered Plates

Durable aluminium chequered plates for flooring, staircases, walkways, vehicle bodies, and anti-skid industrial applications. Lightweight, corrosion-resistant, and built for heavy-duty usage.

Aluminium Fin Stock

Premium aluminium fin stock for HVAC, condensers, evaporators, radiators, and heat exchangers. Engineered for excellent thermal conductivity, smooth formability, and reliable cooling performance.

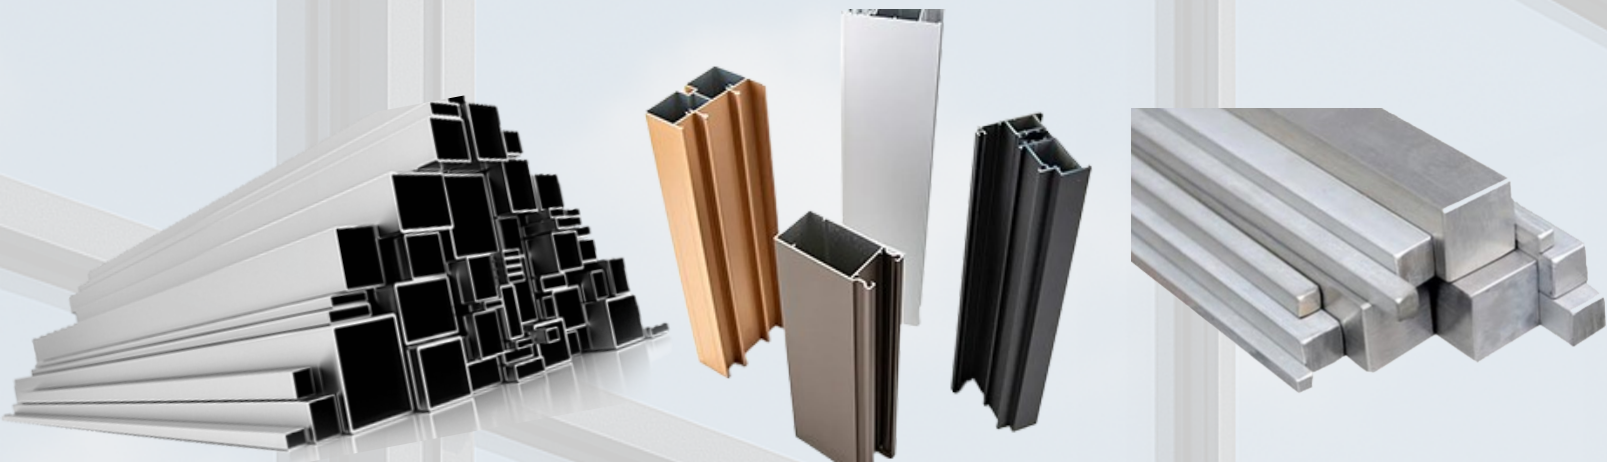

Aluminium Grades We Offer...

1050 | 1060 | 1100 | 1200 | 3003 | 3103 | 3105 | 5005 | 5052 | 5083 | 5754 | 6061 | 7075 | 8011
Available in various tempers and sizes as per requirement

Aluminium Extrusions

We supply engineered aluminium extrusion solutions for architectural, industrial, electrical, renewable energy, and infrastructure applications.

- Aluminium Profiles for Doors & Windows
- Aluminium Glazing Profiles
- Aluminium Solar Frame Profiles
- Aluminium Solar Mounting Structures
- Mono Rails, Long Rails, Mid Clamps & End Clamps
- Aluminium Heat Sink Profiles
- Aluminium Scaffolding Profiles
- Aluminium Flats & Bus Bars
- Aluminium Rods, Pipes & Tubes
- Aluminium Cooker Patti Profiles

Aluminium Grades We Offer...

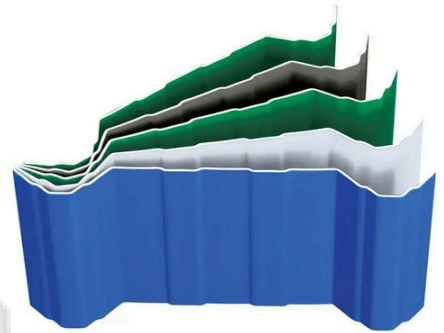

1050 | 2014 | 2017 | 6060 | 6061 | 6063 | 6082 | 6101 | 6351 | 7075

Available in various tempers (T4,T6 etc.) and lengths

Aluminium Roofing Sheets

Cool Inside Shine Outside

- 40+ Years of Life Span
- Withstand any Weather Condition
- Ecofriendly and Economic
- Minimal Maintenance Required
- High Resale Value
- Reduces Power Consumptions on AC
- Ideal for Solar Panel Installation on Roofing Sheets

Get Benefited with Special Aluminium Alloy 5052
The MARINE Grade

- Provides excellent structural integrity and long-lasting performance
- Offers strength comparable to steel while remaining lightweight
- Designed to perform in extreme environments and coastal areas
- Specially engineered for Distilleries, Chemical, Iron and Steel Industry, ensuring safety and longevity

Gauge & Weight Chart

Gauge	Thickness(mm)	Weight (Kg/Sq.M)	Gauge	Thickness(mm)	Weight (Kg/Sq.M)
32	0.28	0.755	20	0.91	2.46
28	0.38	1.024	19	1	2.69
26	0.46	1.24	18	1.22	3.37
25	0.5	1.35	17	1.4	3.87
24	0.56	1.51	16	1.6	4.38
23	0.65	1.75	15	1.8	4.85
22	0.71	1.92	14	2	5.39
21	0.81	2.18	12	2.5	6.73
20	0.91	2.46	10	3	8.09

Comparison of ISO and IS Designation
